

# Building Materials

Belts for tiles, bricks and roofing tiles

## RIDGE TOP V BELTS, ROUND & V BELTS

- High abrasion resistance for heavy and abrasive building materials.
- Different shore hardnesses for variable conveyor lines.
- BEHAbelt profiles and belts are made of 100% PU or TPE and therefore quickly and easily weldable.
- Wide range of coatings (e.g. SuperGrip)
- Good temperature resistance.
- Available with and without reinforcement (aramid, polyester; incl. the patented, weldable glass fiber reinforcement).

 We would be glad to advise you!

## WELDING TOOLS & CONTROLLERS

BEHAbelt developed more than 40 years specialized welding technology for belts and profiles.

These include various welding paddle, the patented friction welding machine RS02 as well as hot press together with controller.

On the back you will find more information on the subject.

Works.  
Simple. Safe.
